Task	Rate	Qty	Amount
<p>Run prerequisite check against existing file structure to ensure that the migration passes all best practice checks. If there are any issues like super long file paths or something, then I can make recommendations and work with CIRE Equity to resolve them.</p> <p>Create a simple and straightforward migration plan that CIRE Equity signs off on before any data migration takes place. This at a high level will describe where top level items in the source location (FileShare) go within the destination location (SharePoint Online).</p>	\$175	6	\$1,050
<p>Migrate ~340GB of data from local FileShare into SharePoint Online while maintaining the existing permissions configuration on each object. This includes time for troubleshooting any issues that arise. This requires incremental migrations until a cut-over date is set where at that time users will use SharePoint instead of the local FileShare.</p>	\$175	24	\$4,200
<p>Bucket of time for training and providing support as needed during the transition.</p>	\$175	4	\$700

Subtotal \$5,950.00

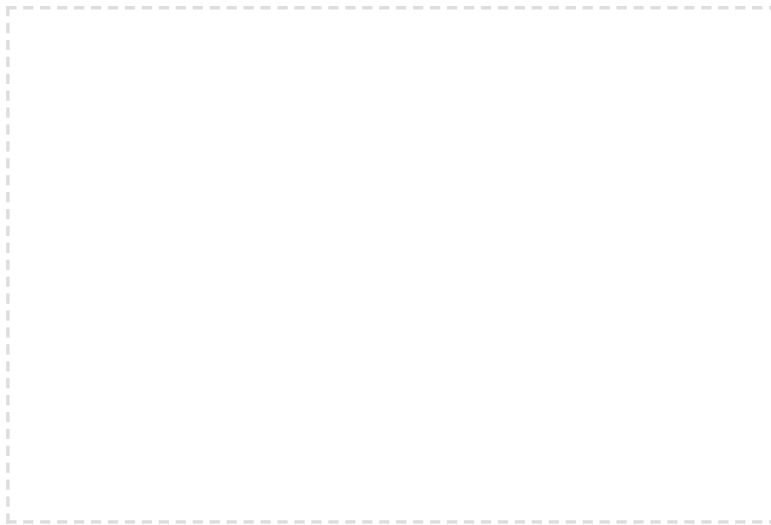

Total  \$5,950.00
